

Andes Tech Solutions - Catering Inquiry

Andes Tech Solutions - Bogota, Colombia

Subject: Interest in Weekly Catering Service

Hello,

We are Andes Tech Solutions, a technology company based in Bogota. We are about to open a new office in Medellin and would like to offer lunch to our team of around 220 people on a weekly basis, perhaps Tuesdays and Thursdays to start.

We would like to receive a proposal from you with pricing and an explanation of how the logistics would work. The idea is to sign a one-year contract if everything goes well, using the standard menu you already offer.

We would need to have this ready in about two weeks because we are opening the office next month. Would it be possible before August 18?

Best regards,

Daniela Rojas
